About Mark McManus:

In August 2016, Mark McManus was unanimously elected General President of the United Association (UA) at the UA’s 39th General Convention and on November 10, 2016, he assumed his new position leading the nation’s most progressive and influential trade union.

Mark began his career with the UA in 1983 when he was initiated into Plumbers Local 24 in Newark, New Jersey. He was elected Business Agent in 1994 and Business Manager in 1997. His talents and leadership brought him to the UA General Office in 2007 where he has served as International Representative, Administrative Assistant to the General President, and a five-year term as General Secretary-Treasurer.

As General President, Mark is responsible for supervising the day-to-day affairs of the UA and for decisions concerning internal union governance, as well as rendering decisions and adjusting disputes and other matters affecting the organization. He is the Chairman of the UA General Executive Board, UA Strategic Planning Committee and the Board of Trustees on multiple UA pension Funds. He oversees the development and implementation of all major UA policies and programs, including the industry-leading UA Veterans in Piping® (VIP) Program.

In addition, Mark serves as Vice President of the Executive Council of the Metal Trades Department, is a member of the Building Trades’ Governing Board of Presidents and serves on the Board of Directors of Helmets to Hardhats. Mark has had a distinguished career in support of our nation’s hard-working men and women and is unwavering in his commitment to a strong and mutually beneficial partnership between labor and management.
